<p>Aadil Cyberlawexpert [pk.cyberlaw.expert@gmail.com] 10-11-2018</p>	<p>Respected Sir Its always an honor to be at the prestigious academy for judicial learning. With due respect I am posted at Islamabad High Court and therefore consider this academy as our mother academy. With reference to last week course on Law of evidence, I have a few suggestions to made. Although this is not appropriate forum as we were provided forms for feedback at conclusion of the course but unfortunately the time provided for that is very little and inappropriate as we are in hurry and giving a week’s feedback needs time.</p> <p>I am making this courage because of your fatherly behavior towards our training. Sir I would strongly recommend to introduce a course a course which focuses on the following aspects of electronic evidence i.e.</p> <ul style="list-style-type: none"> <li>- Legal admissibility of electronic evidence</li> <li>- Appreciation of electronic evidence</li> <li>- Relevant laws of electronic evidence</li> <li>- Procedure to bring electronic evidence on record</li> </ul> <p>In our daily life, in almost every case of even conventional crime, the most important piece of evidences are based on CCTV footages, CDR, mobile locations and stuff like that i.e. emails etc. but the respected judicial officers needs proper training regarding all the above mentioned aspects. With due respect I would also like to bring in your kind knowledge that I have the honor to get an article of mine publish in Journal section of the PLD 2017. I hope this email will be supportive in assisting your worthy office.</p> <p>Thank you sir</p> <p>Jawad Hussain Aadil Civil Judge cum Judicial Magistrate Section 30 Islamabad - East Sent from <a href="#">Mail</a> for Windows 10</p>
